Tools/Help With	Car Specific?	Contact	Comment
Gas & Electric Welder, Machine Lathe		Al Cronk	I would like to offer my personal services to the club members as a resource person with some ideas on solving unique problems involving mechanical things. Also, I enjoy designing and fabricating things that are otherwise not available. Anything of brass, bronze, steel, or cast iron that is broken and is in need of repair or replacement would be of interest to me; that is, if replacements are unavailable or are prohibitively expensive.
Steering Wheel Puller		Brian Gormley	Arms reach around to back of steering wheel hub
MIG Welder		Jeff Parks	
Chain hoist		Jeff Parks	
Vacuum pump & brake kit		Jeff Parks	
Rear hub puller	Spitfire / TR7 4 spd	Mark Jones	This is a copy of the Churchill hub puller
